EXECUTIVE SUMMARY

Motivated Data Science student with a strong foundation in Machine Learning and Generative AI. Eager to apply knowledge in real-world scenarios and contribute to impactful projects. Passionate about using technology to create innovative solutions and strengthen problem-solving skills while staying updated with AI trends

EDUCATION

1.Sri Shakthi Institute of Engineering and Technology

B.Tech - Artificial Intelligence and Data Science

2023 - 2027

CGPA - 8.52

2.Vivek Vidyalaya Matric Hr.Sec.School

Class: XII

2022 - 2023

Percentage: 86%

EXPERIENCE

AI/ML Intern — Microsoft x Edunet Foundation (AICTE)

Jun 2025 – Jul 2025

- Built and evaluated ML models end-to-end — preprocessing → training → tuning — using Microsoft's cloud tooling.
- Developed small-scale deployment workflows gaining exposure to model lifecycle, reproducibility & performance metrics
- Earned certification for completing an applied AI program focused on real-world ML practices.

FEATURE PROJECTS

FlexiEv – AI-Driven EV Management Platform | [link](#)

- Implemented ML models including Linear Regression for State of Health (SoH) estimation & GRU networks for predicting RUL
- Developed analytics dashboards to visualize EV performance, battery ageing patterns, and charging station insights.
- Built a conversational chatbot using RAG pipelines with Gemini & OpenAI APIs enabling users to query EV data with custom prompting on LLMs
- Tech Stack: Python, TensorFlow, PyTorch, RAG, OpenAI API, Gemini API, MongoDB

AI-Powered NCERT Learning & Assessment System | [link](#)

- Built a RAG-based academic assistant that delivers answers strictly from book content with zero-hallucination tolerance.
- Engineered automated MCQ generation, test evaluation, and heatmap-based analytics for student performance.
- Designed a teacher portal to upload books/tests and access class-level insights and student progress trends.
- Tech Stack: Python, OCR, NLP, TensorFlow, PyTorch, RAG, LLMs, PineCone, MongoDB, Analytics Pipeline

Amazon Multimodal Product Intelligence System | [link](#)

- Developed a multimodal ML pipeline combining visual embeddings (CNN) with text embeddings (BERT) for product understanding.
- Enhanced product category and attribute prediction accuracy through fusion-based architecture and feature alignment.
- Automated high-volume preprocessing, feature extraction, and evaluation workflows for scalable dataset handling.
- Tech Stack: Python, PyTorch, TensorFlow, BERT, ViT, CNN, Scikit-learn, FastApi

SKILLS

Programming Languages: C, Python

Databases & Tools: MongoDB, PineCone, Git, Excel, VS Code, LM Studio, Docker

AI/ML Expertise: Machine Learning, Deep Learning, NLP, Large Language Models (LLMs), Agents

Soft Skills: Problem Solving, Team Collaboration, Adaptability, Critical Thinking

Languages (Spoken & Written): Tamil (Fluent), English (Fluent), Deutsch A1 (Beginner)

Achievements & Activities

Hackathons:

- Top 10 finalist at Ministry of Coal National Hackathon 2025 among 300+ teams.
- Runner-up at MobilityX 2.0 (250+ participants) and secured 1st place in Software Track.
- SRCAS 2.0 Hackathon (2025): Winner among 200+ participants; built application for cyberbullying detection and prevention

Certifications :

Advanced Python Programming, Big Data 101, Introduction to Data Science, Microsoft PowerPoint, Design Thinking Workshop, Intel Unnati – Get Started with Generative AI.

Leadership & Events:

- Secretary [2025-2026] - Department Of Artificial Intelligence and Data Science
- Pitched at TN STARTUP SUMMIT'25- Pitched our startup idea to investors and enthusiasts
- Professional and International Service Director[2025-2026] - Rotaract Club of Sri Shakthi Institute of Engineering and Technology
- Organized and conducted a Technical Event at College FestKALAM 2k25.
- Participated in an OutBound Learning Workshop for team collaboration and leadership skills.
